

Protective Community Index

A rapid assessment tool to monitor service access and quality in cocoa communities

Questionnaire

This tool has been prepared by ICI to rapidly assess access to services that help protect children in cocoa-growing communities. It captures factors related to children's fundamental rights, such as quality education and safe water, as well as other community characteristics.

- **Bold text** denotes instructions to the enumerator.
- Section A should be filled out **prior to starting the interview**
- Section B should be used to collect information from a **community leader**.
- Section C should be used to collect information from **teachers**.
